

CASE: COSPIRE

Area: Lausanne, Switzerland **Products used:** Acoustic Panels

Interior Architect: Lucio Kilcher & Janan Shakur

Cospire is a brand-new coworking space in the city of Lausanne, Switzerland. The venue offers 28 fixed and flexible desks, as well as two private offices, a workshop, kitchen and lounge areas.

Designed as a playground for innovators, they also host events, trainings and activities, blurring the line between work and play. Boasting a stylish modern interior, Cospire is part of a growing wave of alternative workspaces where the emphasis is on creativity and collaboration.

As the popularity of coworking environments increases, designers note a greater need for acoustic solutions to ensure that concentration is not compromised by sound.

Products used:

Acoustic wood-wool Panels — Diagonal, Arch, Curve.
